Dearest Pastor And The Saints of God

Subject: **Impact Mission Partnership Update & Upcoming Mission Expansion**

Greetings in the Precious Name of the Lord Jesus Christ our Saviour

We are writing to extend our profound appreciation for your strategic investment into our rural missionary operations across the Zambian jungles a nation in Africa.

Your consistent prayers and financial commitment serve as the lifeblood of our mobilization efforts, enabling us to advance the Gospel into previously inaccessible, unreached regions.

Through your timely backing, we successfully acquired our first ministry motorbike, which has fundamentally transformed our field logistics. This critical asset allows our team to routinely navigate difficult jungle terrains and rough trails to provide spiritual and material relief.

Furthermore, your direct funding has facilitated the physical establishment of our new central church project in the jungles and its sustaining our routine mission circuits, bringing hope and stability to these remote village communities.

We are now focusing on the vision ahead, an Annual Ministry Mobilization As we look to expand our impact, we are actively preparing for our upcoming Annual Ministry convention slated for 15 to 20 th October this year where we are expecting you to be the main guest speaker and be a blessing to Gods children. Besides being the guest speaker, we shall be able

(Ephesians 3/ Colossians 1):

'Preaching Among the Gentiles the Unsearchable Riches of The Lord Jesus Christ, Which Hath Been Hid in God in All Ages and Generations'

to plan and pray together for the spiritual needs both for the main base and our satellites. You shall also have a feel and a direct touch or connection of our people and also see how your support is being utilized

This vital gathering serves as a unified convergence for spiritual revival, leadership training, and communal support.

To achieve this, we further need your support as we face the massive logistical task of safely ferrying about hundred believers from the jungles and feeding them throughout the duration of the meetings.

Your support during this season will directly resource the transport and catering infrastructure required to bring everyone together.

Concurrently, to double our deployment capacity before the conclusion of this year, we are prayerfully aiming to procure a second ministry motorbike as we had indicated early this year that we have been praying by God's Grace to have at least two motor bikes before the year ends. This additional asset will immediately permit a second missionary team to establish separate routes, cutting travel times in half and multiplying our regular outreach presence.

We are immensely grateful for your standing as a co-laborer in this vision. We invite you to prayerfully consider partnering with us through this next phase of logistics, transport, and asset acquisition as we continue to serve these resilient communities.

We finally thank God for your vision-aligned heart for global missions. Your investment is yielding tangible, eternal dividends in the lives of the people especially those who do not know Christ and the message of the hour.

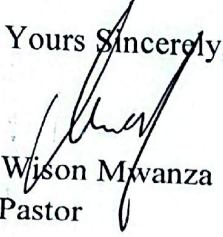

We remain committed to strict financial accountability and look forward to sending you a comprehensive field report or ministry impact in photos following the annual meetings

With sincere gratitude and blessings

(Ephesians 3/ Colossians 1):

'Preaching Among the Gentiles the Unsearchable Riches of The Lord Jesus Christ, Which Hath Been Hid in God in All Ages and Generations'

Yours Sincerely,

Wilson Mwanza
